Also with the overwhelming support of the Greek business & financial community. Over the years, Capital Link Invest in Greece Forum has developed to become an International Summit about Greece**, recognized as the main platform for updating US investors on developments in Greece, business and investment opportunities and the attractiveness of Greece as an investment destination. It gathers the elite of the financial and investment communities, as well business and government leaders from the United States and Greece. **This year, as a Virtual Forum, the event was available to a global audience.**

Foreign investments are of critical significance for the re-launching of the economy. This concrete plan enhances investor interest and confidence and, thus, helping to attract foreign investments.

**With a 22-year track record of success, Capital Link Invest in Greece Forum has been engaged in a systematic effort to highlight Greece’s profile, to a global business and investment audience.**

A special emphasis was given to the Business & Investment Opportunities in Greece and the wider region. **Led by the Prime Minister, several key Greek Government Ministers outlined their specific programs and policies in the sectors of their portfolios in order to achieve the shift of the economy to a new, sustainable development model for Greece of tomorrow. A confident economy: productive, technologically advanced, innovative, extroverted, intelligent, and competitive, which has disproved the pessimists and attracted the recognition and praise of European partners. A top-level group of CEOs and other executives discussed trends, developments and opportunities for each of the main areas of the economy. Finally, a group of international investors shared their insight and shed light to the reasons that lead them to choose Greece as a Business and Investment Destination and what lies ahead.**

The agenda, topics and structure of this forum have been designed to conform with investor interests and requirements. It combines the Greek and US government perspective, with that of private sector executives, international financiers and international investors.

**H.E. Minister of Finance, Mr. Christos Staikouras,  
made a keynote speech entitled: “GOVERNMENT ECONOMIC POLICY & OBJECTIVES –  
POSITIONING FOR THE POST COVID-19 ERA”.**

**Mr. Jay Collins, Managing Director, Vice Chairman Corporate & Investment Banking – Citi made the introductory remarks followed by a discussion.**

Minister of Finance **Mr. Christos Staikouras**, in his speech stated :

“The Greek economy has depicted remarkable resilience, due to the effective handling of the pandemic by the Government.

This is recognized by all “stakeholders”, namely the institutions, the markets, the investors, the rating agencies, and, last but not least, the Greek society.

However, it continues to face significant challenges, which require persistent reform efforts.

We are working prudently and methodically, to address the remaining vulnerabilities, to successfully tackle the health crisis, population movement and geopolitical turbulences, and to make efficient use of the available European funds, mainly those from the NextGen EU.

The size of the envelope and its composition pose a unique opportunity for Greece to boost economic activity, through both investments and reforms that will have a prolonged and sustainable impact on the country’s long-term economic outlook.

Investment and reforms that build on and complement past and ongoing policies in the context of the enhanced surveillance process, also reflecting horizontal European priorities.

Investment and reforms, among others, to achieve efficient use of energy, to upgrade networks, to make sustainable use of resources, to achieve climate resilience, to digitalize public and private sector, to promote job creation and participation in the labour market, to improve accessibility and sustainability of healthcare, to increase access to effective and inclusive social policies, to enhance social cohesion, to make fiscal policy more growth friendly, to improve tax administration and tax collection, to improve the efficiency of the justice system, to strengthen the

financial sector and capital markets, to promote endogenous sources of growth – like education, vocational education and training, research and innovation, to promote exports, and to improve the business environment. Taking advantage of all the above, we will have the opportunity not only to recover, but to enter in a strong and sustainable upward trajectory.

An opportunity that we are determined to seize in order to restructure the economy, to enhance its productivity and to improve its competitiveness.”

**Mr. Jay Collins, Managing Director, Vice Chairman Corporate & Investment Banking - Citi** praised the Greek government for handling prudently the pandemic crisis and for continuing a reform effort during such a turbulent time. More specifically, Mr. Collins focused on structural reforms, green growth, digital transformation and the attraction of foreign direct investment. Finally, he acknowledged the stance of the Greek people, saying that people and families came together for protecting each other during the pandemic.
