Newtons  
LABORATORY

## Sustainable Banking builds a better world, with more opportunities. The world that our children deserve.

At **Piraeus Bank**, along with 29 other banks from all over the world, we have developed the principles for a new way of banking.  
**Sustainable Banking.**

A responsible way of banking, with modern values and transparency, which protects the environment and creates prosperity for society. We adopt these principles by incorporating environmental, social and governance criteria (ESG) in an increasing range of activities and within the products we offer to our clients.

For more information, go to [www.piraeusbank.gr/sustainable-banking](http://www.piraeusbank.gr/sustainable-banking)

**EMBRACING TOMORROW**
