

# Investing in Greece Investing in the future

**In GEK TERNA Group, we implement investments of 10 billion euros and we will create more than 20,000 new jobs in the coming years.**

For more than half a century we have been working, creating, innovating and laying solid foundations for a sustainable future.

Actively caring for the environment, substantially contributing to local communities and with respect for our people, we are a responsible corporate citizen and a pillar of development for the country.

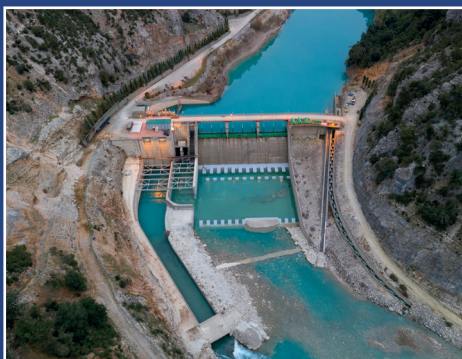

**We utilize** the inexhaustible domestic energy potential for the production and storage of clean energy.

**We design, develop and operate** key infrastructures, which ensure comfortable and safe transportation and upgrade the tourist product of our country.

**We are building** demanding and emblematic projects that reshape the urban landscape and improve the quality of life.

**20,000**  
new jobs  
in the next five years

**€10 bil.**  
investments

**Our vision is sustainable prosperity for all**
